# NEXUS

*For over 150 years the traditional format of classroom layout in Australia has remained relatively unchanged.*

- Tight rows of desk and chairs that inhibit movement and interaction.
- Teachers are restricted to the front of the rooms.
- Limited opportunity for students to interact with each other

Introducing the New **“Nexus”** classroom seating.

Research shows that learning is enhanced when it is social and active. Our new **“Nexus”** system allows the classroom to be considerably more flexible. Seating can be formatted in a traditional way or very quickly changed to face other directions (white board) or into groups.

The **“Nexus”** incorporates the following and can be customised.

- Tablet incorporating cup and pen holder, can swivel around the chair for left hand or right hand students.
- Easy swivel (simple to use) for quick entry and exit
- Seat is ergonomically shaped incorporating air holes in the back to allow heat to disperse from the user. (Important in our climate).
- Variety of colour options
- Upholstery can be added if required.
- Chair base allows for books, lap tops etc. to be conveniently stored under the seat.
- The base can be fitted with standard castors, glides or break castors (locks when loaded on).
- The base is available in two colours, black or grey.
- All components are serviceable on site.

Other options

Available with or without tablet

The base can be changed to standard 5 way base for gas lift option and is also available in sled or 4 leg base options.
