

Zara Dining Chair

Chairs incorporate the following features:

- Tube closures (tips) are non-slip neoprene.
- Frame is fully welded stainless steel (eliminating the problems with KD frames and scratching issues with powder coated frames).
- Shell is ergonomically shaped with a tear drop handle in the back.
- Shells are made from Australian Eucalyptus veneer, cross applied for maximum strength. Final finish is scratch resistant Laminex that requires no maintenance.
- 5 colours - Liquorice, Milkshake, Nougat, Brushed Walnut and Golden Oak.
- We have carried over our original 16 screw fixing from the Daisy chair (with over 70,000 chairs sold using this method) incorporating stacking bumpers.
- Chairs can be supplied unassembled (5 per carton) for storage or we can assemble.
- Chairs are load rated to over 130kg.
