

We have custom designed and locally manufactured a Prototype SPQ, and invite you to attend a private viewing of our prototype currently located at 52A Buckingham Drive, Wangara.

Our design team has addressed key interior issues by adding the following features into our SPQ;

- Gyprock internal walls providing superior acoustics and greater thermal installation.
- Superior bed / mattress manufactured with additional internal support structure, extra mattress topper and a 10 year warranty.
- Comfortable upholstered bedhead with task lighting and built in USB port.
- Block out blinds, custom made and fit for purpose, allowing no external light to filter into the bedroom.
- Home-like interior finishes manufactured with walnut natural timber laminate.
- Finger grip holes in-place of furniture hardware, aiding in the ventilation of bedroom furniture.
- Larger shower recess with glass door and contemporary stainless steel fixtures and fittings.
- Mirrored shaving cabinet with modern vanity unit.
